

A GREAT BUSINESS OPPORTUNITY

It's good for you and it tastes great!

Two Reasons why you should consider This Opportunity:

1. HEALTH:

- Australians have a diet driven health crisis and this is mirrored in many other countries throughout the world.
- Every 10 minutes an Australian dies from Cardio Vascular disease.
- Every 10 minutes an Australian is diagnosed with diabetes.
- One in 3 Australians is affected by cancer in some form.
- Australia is the second most obese country in the world.
- 3 million Australians suffer from Asthma.
- Our health does not seem to be getting better.

2. COFFEE:

- Coffee is the second largest commodity in the world.
- Coffee is the most popular drink worldwide with 1.4 billion cups consumed every day.
- 57% of all coffee is consumed at breakfast.
- The USA is the world's largest consumer of coffee.
- Canadians drink over 15 billion cups of coffee a year, making coffee Canada's favorite hot beverage.
- Last year in Britain, £623 million was spent on coffee. Britain consumes 500g of coffee per person per year.
- Australians consume 60% more coffee than tea, a six-fold increase since 1940

AN AMAZING BUSINESS OPPURTUNITY: A company has taken these two subjects and made them work together creating a delicious healthy coffee. This company is Gano Excel. They have combined Ganoderma Lucidum (Reishi Mushroom) with Brazilian coffee beans which have been decaffeinated by the water process. Even though it is decaffeinated, a cup of Ganoderma coffee will give you the lift and energy you expect from regular coffee without the jitters or withdrawal effects, due to the amazing mushroom extract in it. As not everyone drinks coffee and people love variety, they have also combined the Ganoderma Lucidum with tea and hot chocolate as well as other products!

Ganoderma Lucidum is the oldest medicinal mushroom known; it has been used in Japan and China for over 4,000 years. Since ancient times, the Ganoderma mushroom was reserved for emperors and royalties. It has been revered as nature's rarest and most *beneficial* herb. Some of the benefits associated with the Ganoderma Mushroom include:

- Promotes general nutrition
- Nourishes the Eyes and the Nerves
- Promotes Cardiovascular Health
- Supports normal Cholesterol levels
- Promotes normal Blood Sugar levels
- Supports healthy Liver function
- Promotes healthy Skin
- Provides nutritional energy to the Cells
- Provides Neurological support

There are thousands of papers, reports, clinical trials, tests and information on this remarkable herb on the Internet. Simply log on to [google](https://www.google.com) or www.pubmed.org and enter Reishi or Ganoderma to learn more about the amazing health benefits associated with this awesome herb. There is no toxicity with the Ganoderma mushroom, it can be consumed on a daily basis, it also has 165 antioxidants in its own right and a near perfect acid + alkaline blood state, registering 7.27. This is very important to create & maintain the balance & harmony required for good health and well-being within the body.
